

Products | AB Circle introduces CIR135B Nano-SIM Contact Smart Card Reader to Empower Mobile Security and Secure Digital Transactions

AB Circle has launched the CIR135B Nano-SIM Contact Smart Card Reader, a compact reader designed to support Nano-SIM cards. Featuring a firmware-upgradable core and a USB Type-C connector, the reader is optimized for the use of portable devices such as smartphones, tablets, and laptops, making it ideal for any on-site operations and mobile work environments. The addition of this new product to AB Circle's portfolio reflects the company's continuous effort to innovate and provide customers with greater flexibility in choosing a device suitable for their needs.

Distributorship | AB Circle Japan Launches Official Amazon Storefront

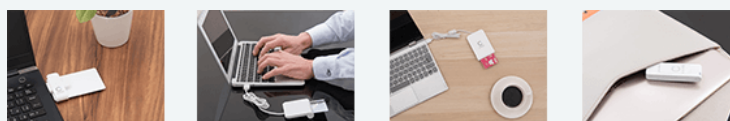

AB Circle Limited has officially opened its brand storefront on Amazon Japan (Amazon.co.jp) to provide direct local access to its secure smart card readers. Designed to meet growing demand across healthcare, corporate, and public sectors, the initial product lineup features the CIR315A-02 Contactless Reader, the CIR415A Bluetooth Reader, and a specialized My Number Smartphone Reader Stand—ideal for e-Tax filings, medical online qualification verification, and streamlined identity scanning. Customers across Japan can now enjoy fast, seamless purchasing directly on Amazon, with further product catalog expansions planned.
